Impact Testing

The Hanover Park High School District will continue to implement the Impact Program for our student athletes. This program will assist our team physicians/athletic trainers in evaluating and treating head injuries. It is a computerized exam used to successfully diagnose and manage concussions. If an athlete is believed to have suffered a head injury during competition, Impact is used to determine the severity of a head injury and determine when the injury has fully healed.

This non-invasive test is set up in a “video-game” type format and takes 25-35 minutes to complete. It tracks information such as memory, reaction time, speed and concentration. It is not an IQ test and this test will not be placed in a student’s academic file. This test will be given once every other year for the following sports:

<u>Fall</u>	<u>Winter</u>	<u>Spring</u>
Football	Wrestling	Boys/Girls Lacrosse
Boys/Girls Soccer	Boys/Girls Basketball	Baseball
Field Hockey	Ice Hockey	Softball
Cheerleading		Pole Vault
Volleyball		High Jump

The continuation of this program is important to the Hanover Park Regional High School District. We are striving to keep our student athlete’s health and safety at the forefront of his/her athletic experience. If you have any questions regarding this program, please feel free to contact Nicole Member, Athletic Trainer, at 973-887-3004 x3235.

Athletic Award Guidelines

It is important that student-athletes be recognized for their hard work and efforts when participating in the Hanover Park Regional High School District athletic programs. At the conclusion of every season, coaches will conduct end of the season ceremonies/banquets for the purpose of recognizing these student-athletes in the presence of their teammates, families and friends. The athletic department has established awards that are distributed to qualifying athletes. The criteria for the disbursement of these awards are different from sport to sport and are listed in the "Specific Sport Requirements" section. Our purpose is to recognize as many athletes as possible, with the highest accolades that can be given to them.

Awards Procedure

In the opinion of the awarding coach, if a student athlete's performance has met the established criteria and merits recognition, he/she may receive an award. A copy of the criteria will be kept on file in the athletic office.
